

Concentra

Helping to answer tough healthcare management problems

Concentra works with customers to deliver award-winning results that improve both productivity and quality of services from day one. They combine management consulting, data analytics and best of breed technology to create easy-to-use tools that enable customers to carry on generating benefits after work is complete.

The experience within Concentra's team of consultants, operational and clinical specialists, means that they deliver value to customers across healthcare provision in the UK; including the Department of Health, regulatory bodies, Foundation Trusts and Primary Care Trusts. Concentra help customers to understand and then reduce their costs, maximise current and future revenue and monitor performance against targets.

By combing this healthcare experience with Microsoft Gold Partner certification Concentra are able to focus on delivering answers to the tough management problems in healthcare. For further details: www.concentra.co.uk/
