

Open Text Corporation

The world's leading independent ECM solution

Open Text is the world's largest independent provider of Enterprise Content Management software. The company's solutions manage information for all types of business, compliance and industry requirements in the world's largest companies, government agencies and professional service firms. Open Text supports approximately 46,000 customers and millions of users in 114 countries and 12 languages.

Open Text UK Government solutions offer fully deployed corporate EDRMS as well as integration with core back office applications including Microsoft SharePoint, Office, SAP, BizTalk, Lagan CRM and specific local government departmental applications. Additionally they can provide options for departmental business applications and fully developed Local Government business workflows including such areas as planning, revenues and benefits, social services, committee minutes, HR and finance, including freedom of information and data protection compliance modules.

Open Text Records Management solutions have been successfully tested against standards such as TNA 2002 and MoReq. Their involvement in the more recent Moreq2 standards development will also ensure that Open Text delivers a compliant solution for customers in the future.
