

SFW Ltd

Delivering value through IT to the public sector

Working with SFW ensures you deliver your business goals effectively, efficiently, innovatively and on time. With a full service offering which includes custom / bespoke application development, website/intranet /portal development, content management, CRM, electronic document and records management, business intelligence and systems and software integration, SFW can help your organisation transform itself and meet your specific and exact needs.

SFW is the preferred and trusted technology partner for many notable public and private sector organisations. As a Microsoft Gold Partner with a reputation for building long term client relationships, some spanning its entire 17 year history, working with SFW gives you “more for less” and delivers real value and real business advantage to your organisation.
